DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statements submitted on January 23, 2002 and March 12,

2002 have been considered by the Examiner and made of record in the application file.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they

include the following reference numbers not mentioned in the description: On figure 3, reference

numbers 420 and 460 are not mentioned in the description.

3. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to

the Office Action to avoid abandonment of the application. Any amended replacement drawing

sheet should include all of the figures appearing on the immediate prior version of the sheet,

even if only one figure is being amended. The figure or figure number of an amended drawing

should not be labeled as "amended". If a drawing figure is to be canceled, the appropriate figure

must be removed from the replacement sheet, and where necessary, the remaining figures must

be renumbered and appropriate changes made to the brief description of the several views of the

drawings for consistency. Additional replacement sheets may be necessary to show the

renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement

Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the

Application/Control Number: 10/052,814 Page 3

Art Unit: 2686

drawing figures. If the changes are not accepted by the Examiner, the Applicant will be notified and informed of any required corrective action in the next Office Action. If a response to the present Office Action fails to include proper drawing corrections, corrected drawings or arguments therefor, the response can be held **NON-RESPONSIVE** and/or the application could be **ABANDONED** since the objections/corrections to the drawings are no longer held in abeyance.

Specification

4. The disclosure is objected to because of the following informality: The columns under the headings of **Table 1** in **page 9** are shifted to the left from their respective headings.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office Action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Application/Control Number: 10/052,814

Art Unit: 2686

6. Claims 1, 5-10, 12-14, 16, 17, 19-21, and 23-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Kung (EP 0 863 678 A2).

Consider **claims 1 and 17**, Kung clearly shows and discloses a system and method for automated interactive management of a communication service account, said account having parameters establishing rules of use during which a user device accesses the communication service (abstract), comprising:

a server (figure 2); and

a data storage device (figure 2) in communication with the server, the data storage device comprising account data that comprises the parameters (abstract, figures 1 and 2, column 3 lines 29-51, and column 4 line 13 - column 5 line 11);

wherein the server is configured to receive a customer-initiated signal requesting modification of a first account parameter and to modify and update the first account parameter in response to the customer-initiated signal (figures 1 and 2, column 3 lines 29-51, and column 4 line 13 - column 9 line 19).

Consider claims 5-8, 19, and 20, and as applied to claims 1 and 17 above, Kung further shows and discloses that the communication service is long distance telephone service share a cable TV transmission medium, the user device is a telephone, the customer-initiated signal is initiated on the user device or in a PC, and the first account parameter is a number of calling plan minutes (column 3 lines 29-51 and column 7 line 2 - column 9 line 22).

Consider claims 9, 10, 12-14, 16, 21, 23, and 24-27, and as applied to claims 1 and 17 above, Kung also shows and discloses wherein the server is further configured to: receive a

Art Unit: 2686

customer-initiated identifying signal identifying the user device, to retrieve the first account parameter in response to the identifying signal, to issue, in response to the identifying signal and for communication to the customer, a response signal comprising at least part of the first account parameter, to identify the type of user device, and to issue the response signal in a form optimized for the user device (figures 1 and 2, column 3 lines 29-51, and column 4 line 13 - column 9 line 19).

7. Claims 1-4, 9-11, 14, 15, 17, 18, 21, 22, 27, and 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Rosenberg et al. (U.S. Patent # 6,628,934 B2).

Consider **claims 1 and 17**, Rosenberg clearly show and disclose a system and method for automated interactive management of a communication service account, said account having parameters establishing rules of use during which a user device accesses the communication service (abstract), comprising:

a server (figures 1-4); and

a data storage device (figure 2-4) in communication with the server, the data storage device comprising account data that comprises the parameters (abstract, figures 1-4, and column 6 line 1 - column 10 line 65);

wherein the server is configured to receive a customer-initiated signal requesting modification of a first account parameter and to modify and update the first account parameter in response to the customer-initiated signal (column 6 line 1 - column 10 line 65).

Consider claims 2-4, and as applied to claims 1 and 17 above, Rosenberg et al. further

Application/Control Number: 10/052,814

Page 6

Art Unit: 2686

show and disclose that the communication service is a wireless telephone service, the user device is a wireless telephone, the customer-initiated signal is initiated on the user device or in a PC, and the first account parameter is a number of calling plan minutes (column 6 line 1 - column 10 line 65).

Consider claims 9-11, 14, 21, 22, 27, and 28, and as applied to claims 1-4 and 17 above, Rosenberg et al. also show and disclose wherein the server is further configured to: receive a customer-initiated identifying signal identifying the user device, to retrieve the first account parameter in response to the identifying signal, to issue, in response to the identifying signal and for communication to the customer, a response signal comprising at least part of the first account parameter, to identify the type of user device, and to issue the response signal in a form optimized for the user device (figures 6-13 and column 6 line 1 - column 10 line 65).

Conclusion

8. Any response to this Office Action should be faxed to (703) 872-9306 or mailed to:

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Hand-delivered responses should be brought to

220 S. 20th St. Crystal Plaza Two, Lobby, Room 1B03 Arlington, VA 22202 Application/Control Number: 10/052,814

Art Unit: 2686

9. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Rafael Perez-Gutierrez whose telephone number is (703) 308-

Page 7

8996. The Examiner can normally be reached on Monday-Thursday from 6:30am to 5:00pm.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's supervisor, Marsha D. Banks-Harold can be reached on (703) 305-4379. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-4700 or call customer service at (703) 306-0377.
